

SRTC Workshops

Although we provide a wide range of on-site consultative competitive analysis, strategic planning services and facilitated wargaming / red teaming events, we are also great believers in capacity building and "train the trainer". As such, we provide a wide range of leadership-specific and subject-specific workshops to allow you to build specific capabilities within your own corporate suite of expertise.

All workshops are available in one, two and three day formats depending on the training requirements of the client.

All workshop practical exercises are customized to your specific corporate needs and operating environment.

A small sample of the workshops that are available follow:
